

SUZY SANDERS

FAN FARE

It's nice to know that **ANDY WILLIAMS** and **CLAUDINE LONGET** still have a wonderful understanding—if only for the sake of their children. Meanwhile, Claudine has been romantically linked with pro ski star **SPIDER SAVAGE**. I understand she's quite the sportswoman and really knows how to take those slopes.

With an Emmy in one hand and an airplane ticket in another **KAREN** and **RICHARD CARPENTER** cancelled the last seven days of their show in Miami Beach and flew back to their California home. It seems the Eden Rock Hotel continued to serve food during their show. The noise was reportedly so disturbing to Karen and Richard that they split.

And speaking of walking out of things, we all held our breath as **LIZA MINNELLI** arrived at that premiere of **Cabaret** in a backless, almost frontless gown. When Liza and her group were mobbed by thousands of fans, it looked like she was about to have a little more exposure than she planned on—with all the pushing and pulling going on.

Looks like **FRANK SINATRA** is selling out! That is, most of his property—with the exception of his grand Palm Springs estate. His various homes and apartments around the world are for sale and now his eighty-five foot yacht is up for sale for \$150,000. Wonder what he plans on doing with all the loot from the sales.

If all goes as promised, young singing tycoon **DAVID CASSIDY** will run **FRANK SINATRA** close as a top money maker. David's Australian concert offers are so overwhelming money-wise, he'll soon be able to buy Palm Springs for himself. If he did buy it, he would

probably put a high fence around the resort—he's been having so much trouble lately trying to find a little privacy.

Those nasty rumors still keep bouncing around—especially the one about **ALI MacGRAW** and **ROBERT EVANS**. The word is that their ideal marriage may be in trouble. While Ali stayed home for two years to have a baby and be a housewife, Robert was away much of the time. The third party involved—with whom Bob spent most of his away from home time—was his multi-million-dollar baby **The Godfather**. Now that he has launched the film, Ali has been away on location getting her career back in action. They deny any trouble and rack it up to show business.

Although sexy **ANN-MARGRET** didn't walk off with an Oscar this year, she's still a plenty busy gal. Her producer-husband **ROGER SMITH** and his partner **ALLAN CARR** will be starring A-M in their upcoming TV special, **Little Mary Sunshine**. And they're after **RYAN O'NEAL** to co-star. If all pans out, it should be one of the highest rated specials ever to hit the tube.

The power of television is really overwhelming. A few years ago, **SONNY** and **CHER** were the hottest singing group around. Then their fans deserted them for newer groups that came along. Now with their new look and image the great Sonny and Cher are right back on top and even bigger than ever. Sources say that Caesar's Palace in Las Vegas is offering them a

Ryan O'Neal and Leigh Taylor-Young aren't living together, but they are planning to make a new movie together.

Now that the reconciliation between Bob Wagner and Natalie Wood's official, one wonders how Tina Sinatra feels.

It's All In The Family—the family of entertaining that is. Jean Stapleton, proud winner of The Screen Directors Guild Award for 1972, smiles for photographers with Carroll O'Connor, Mary Tyler Moore, and Marty Allen. Last year it was the Emmy.
