Losing His or Her Hair

HOW COMATE WORKS ON YOUR SCALP

If you are troubled by thinning hair, dandruff, itchy scalp, if you fear approaching baldness, read the rest of this statement carefully. It may mean the difference to you between saving your hair and losing the rest of it to eventual baldness.

Baldness is simply a matter of subtraction. When the number of new hairs fail to equal the number of falling hair, you end up minus your head of hair (bald). Why not avoid baldness by preventing unnecessary loss of hair? Why not turn the tide of battle on your head by eliminating needless causes of hair loss and give Nature a chance to grow more hair for you? Many of the country's dermatologists and other foremost hair and scalp specialists believe that seborrhea, a common scalp disorder, causes hair loss. What is seborrhea? It is a bacterial infection of the scalp that can eventually cause permanent damage to the hair follicles. Its visible evidence is "thinning" hair. Its end result is baldness. Its symptoms are dry, itchy scalp, dandruff, oily hair, head scales, and progressive hair loss.

So, if you are beginning to notice that your forehead is getting larger, beginning to notice that there is too much hair on your comb, beginning to be worried about the dryness of your hair, the itchy scalp, the ugly dandruff — these are Nature's Red Flags warning you of impending baldness. Even if you have been losing your hair for some time, don't let seborrhea rob you of the rest of your hair.

The development of an amazing new hair and scalp medicine called Comate is specifically designed to control seborrhea and stop the hair loss it causes. It offers the opportunity to thousands of men and women losing their hair to bacterial infection to reverse the battle they are now losing on their scalps. By stopping this impediment to normal hair growth, new hairs can grow as Nature intended.

This is how Comate works: (1) It combines in a single scale treatment the essential corrective factors for normal hair growth. By its rubifacient action it stimulates blood circulation to the scalp, thereby supplying more nutrition to still-alive hair follicles. (2) As a highly effective antiseptic, Comate kills on contact the seborrhea-causing scalp bacteria believed to be a cause of baldness. (3) By its keratolytic action it dissolves ugly dandruff. By tending to normalize the lubrication of the hair shaft it corrects excessively dry and oily hair. It eliminates head scales and scalp itch.

In short, Comate offers you in a single treatment the best that modern medicine has developed for the preservation of your hair. There is no excuse today except ignorance for any man or woman to neglect seborrhea and pay the penalty of hair loss.

stopped coming to the park. I have always kept that experience as the turning point in my life, since I conquered some of my fear that day."

David's fears have not all been overcome, and he is constantly looking to find the thing or person that will overcome his real fear, that of being unloved and alone. So far he has had very little luck, and can only show for his life the substitutes of many instead of one. It is important that David has always felt that there was no one for him to talk to.

It was his step-mother and co-star of "The Partridge Family" who said, "David had the unfortunate experience of being transported back and forth across the country when he came to visit us. Not only that, Jack and I had children of our own, causing more problems for David. I think that it will take time, but he is learning to face the things that bother him, and eventually he will overcome them and be a really fantastic man."

A young girl who recently dated David said, "I could almost see in his eyes an enormous need to be held, unfortunately he still doesn't know how to ask, when he does he will be a fantastic man. Once he held my hand as we walked through Chinatown and said, 'Sometimes I feel like my life is going to start very soon, and what I'm doing now is just a preparation for the day my life begins.' I just want to be around when he finally relaxes enough to let his life begin. Maybe then he won't need all those people around him all the time."

Right now David needs a lot of love and he thinks he gets it from those around him, and his fans. When the day comes that he has to give all that up, one can only hope that David will have resolved the inner forces that now drive him. It was his father Jack Cassidy who said, "David's the kind of kid who has to face his problems by himself, otherwise he thinks you're trying to treat him like a child. I'm sure that he will eventually learn to be the kind of man he wants to be. I think he has dealt with his fame better than most." For David, love is a stepping stone towards self awareness, and we can only wish him well.

difference between Desi and Liza, she's 25 and he's nineteen, in fact Lucille is inclined to think that she has found a daughter-in-law she already loves. Also, Desi is older now and of age. Besides, Lucy herself is slightly older than husband Gary Morton and she knows that age doesn't really count that much.

On the other hand, a much more mature agreement between Dean Martin and his beloved Cathy Hawn is in the process of being decided. Their love has reached the stage where Dean is ready to make that final commitment, and even the details have been worked out. At first they were talking of having a wedding on the new ranch Dean bought for Cathy. As Dean said, "Just a few friends and close relatives, no big deal. I've been married too many times to have a big deal of a
