

DAVID CASSIDY'S KISSING PLACE!

Continued from page 29

"When TIGER BEAT SPECTACULAR first asked me this question, I couldn't answer it right away. I wanted to turn it over in my mind for a while, because I really wanted to come up with an honest answer!

"Well for the next few days I thought about it on and off, and still I didn't come up with anything. I didn't feel right giving a silly statement because to me, kissing is a very important step in the relationship between a girl and a guy!

"Then one night when I was home all alone, I turned on the TV and an old cowboy movie came on. As I watched it, the answer came to me!

"I've been a cowboy movie addict ever since I was a kid, and naturally at that time I liked horses much better than girls! I still spend some of my happiest hours riding, only now it's even more fun to have a girl along too.

"That's when I closed my eyes and saw the two of us, racing through the tall grass on our horses. When we got to the top of the hill, I reined my horse so I moved very close to you and kissed you right on the lips, of course!"
