

HEAVEN

ALL THE GOSSIP!

Greetings from Hollywood! How are things?

First the good news—**Dino Martin Jr.** and his lovely wife, **Olivia Hussey**, are expecting their first baby in January . . . By that time **Dino** should have graduated from UCLA and started into Medical School . . . Also in the baby department, **Chris George** and his wife, **Lynda Day George**, are celebrating the birth of their first daughter on July 22.

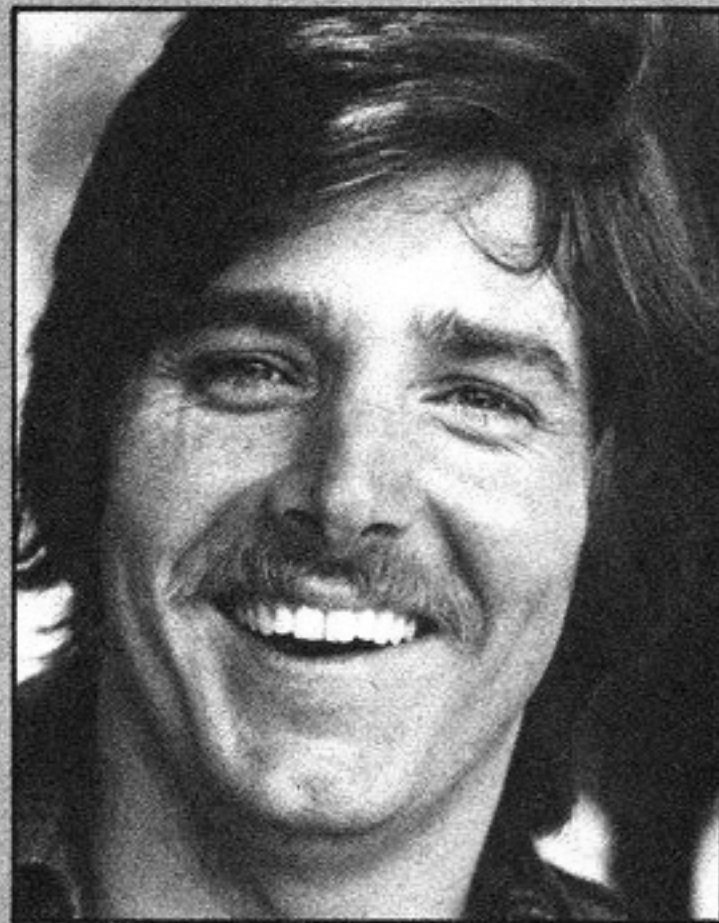

And in the marriage department—By the time you read this **Patty Duke** should be married, for the third time, to actor **John Astin** . . . And **Yvonne Elliman**, who played Mary Magdelene in the Broadway version of "Jesus Christ Superstar" just married **Bill Oakes**.

Oops, back to the baby dept.—It's official, **Michael Cole** and his **Paula** are expecting their first . . . and **Diana Ross** is expecting her second any day now.

Now the bad news—Does anyone besides me remember a great group called **The Association**? The bass player of the group, **Brian Cole**, was found dead in his Hollywood home on August 2—cause unknown . . . And **Chris Knight** is mourning the loss of his pet rat **Frankie** whom you saw featured in **Flip** a few issues ago—it seems **Frankie** just couldn't make it through the latest California heat wave.

David Cassidy has been a bit sad lately too . . . all because one of his managers has left him. **Jim Flood** of **Aarons Management**, which manages **David**, left the organization to work with some other investments. **Jim** was as much a friend to **David** as a manager and **David** misses having him around.

Bobby Sherman fans can cheer up—you'll be seeing Bobby on *The Sonny and Cher Show* very soon—and he's been signed to co-star with **Karen Black** in a TV special that's being filmed this month in Yellowstone National Park.

Stuff and junk—**Danny Bonaduce** is this year's Honorary Chairman for the Christmas Seals Campaign . . . Funnyman **Dave Madden** greeted photog **Henry Diltz** on the Partridge set the other day with "I bet you live in a used people lot!"—the two are actually very good friends . . . **Donny's** "Puppy Love" has been number one in England for five weeks! . . . Did you see **Three Dog Night's** TV special last month? Wasn't it great?

Also caught a very funny act called, believe it or not, **The Phlorescent Leech & Eddie!** Actually it's **Howard Kaylan** and **Mark Volman**, formerly of **The Turtles** and **The Mothers Of Invention**—they're very funny and very good and getting better all the time. Catch them quick, because as soon as **Frank Zappa** recuperates from being attacked on stage recently by a jealous boyfriend of a fan, the two of them may go back to the **Mothers**.

Rumor of the month has it that a certain top teen star has finally married his very long time girl friend—but don't count on it, 'til I have a chance to seek out the truth of the matter—more on that next month.

Cheers, C.D.
