

# An Osmond Family Album

Look how proud Donny looks! He's holding his little niece, Ginny, the daughter of his brother Viri and Viri's wife Chris. Ginny was born on April 15th,

and this photo was taken during the summer, shortly after Donny cut his thumb in a rowboat accident. (You can see the bandage on his left hand.)

Viri Osmond sure has an armful when he picks up his two sons, Aaron and Jared, together!

## David's Furry Feet!

David Cassidy's got fur on his feet!

Actually it's his new furry ski boots—one of his favorite souvenirs he brought back from his European vacation. He bought the boots in Italy and has been wearing them ever since.

The boots are made of yak hide and come almost up to his knees. Although they're designed for cold weather, David likes them so much he's even been wearing them to recording sessions in hot old L.A.

So don't be surprised if you see David up to his knees in fur—it's only his furry boots!
