

★ ★ STAR BRIGHT

by JANEY MILSTEAD

Above: Elvis has taken up wrestling in his spare time. Below: The Williams Twins, Andy and David seemed destined for stardom. They've got a famous uncle? Guess who?

Here's pert Sandy Duncan with a good friend, though she's in love with her doctor, Tom.

The happiest couple in Hollywood is Chad and his devoted wife Shelby Grant.

LEE MONTGOMERY in the latter. Lee is a muchly talented actor at the ripe old age of eleven. When he isn't working, he's a beach nut who swims and gets a great tan and surfs and all that, in between collecting coins and playing baseball and handball. If you're already a fan of Lee's, or just becoming one, his next movie is "Pete and Tillie," where he plays the son of **WALTER MATTHAU** and **CAROL BURNETT**. It's coming out soon, so don't miss it!

THE PARTRIDGE FAMILY had the whole month of August to themselves when the show went on hiatus, and here's where and how they spent those four vacation weeks. **SHIRLEY JONES** did a concert tour with one week in Indianapolis, one in Pittsburgh, one in Cleveland and one just for relaxing. **DAVID CASSIDY** mostly worked too, doing concerts at a lot of state fairs in Illinois, Indiana, Nebraska, New York, Ohio and the Canadian National Exposition. He also finished up his new album, which I'm sure you'll really love. It's slightly different from what David's done thus far, and I'm sure it'll be right up there with "Cherish," certified as a gold record. (Wish you D.C. fans cross country could see the great billboard on the Sunset

Strip that reads **CHERISH DAVID CASSIDY**. It's an ad for the record, but don't a lot of girls do just that?)

SUZANNE CROUGH and her mom went to Massachusetts (did you know that many people on the West Coast pronounce that Massachusetts, not to mention wrong?) and then on to Canada, visiting relatives. **BRIAN FORSTER**, also went on a family vacation, partly with his mom and stepfather, actor **WHIT BISSELL**, and the time with his dad, actor **PETER FORSTER**. Would you say acting runs in that family? **DANNY BONADUCE** stayed home in the San Fernando Valley, riding his two horses which are kept in a nearby stable, and just generally digging summer.

SUSAN DEY went back to New York State to visit her family and **DAVE MADDEN** went off on a tour to promote "The Partridge Family," doing TV talk shows, etc.

HOLLYWOOD HOT WIRE: MIKE LOOK-INLAND of "The Brady Bunch" is nursing a stinker of a sunburn, but thinks he's going to live after all... The first movie about the 1950's-60's rock and roll revival will be called "Hail, Hail Rock 'N Roll" and stars **CHUBBY CHECKER**... If you have to have your tonsils out, don't cry because **RAQUEL WELCH**

is in the hospital parting with hers, too... Star Trekkies watch for **WILLIAM SHATNER** in a seg of "Mission Impossible" next fall... **ELVIS PRESLEY** is turned on to the sport of wrestling, of all things... **THE WILLIAMS TWINS'** record looks like it's going to be a great success, maybe because it actually does happen to be great... **THE ROLLING STONES** will release a double live album from their American tour, with one of the discs by their tour-partner, **STEVIE WONDER**... **DAVY JONES "POP!"** TV special was shown and liked a lot and may turn into a series after all... When the **OSMOND BROTHERS** appear in Las Vegas in September, they'll be the show's headliners for the first time in that city (before they've always appeared "with" a bigger star)... **SANDY DUNCAN** really is dating the doctor who helped operate on her eye and the romance seems serious... **CHAD EVERETT** wanted to name himself Chad York, but was talked out of it... His real name is Ray Crampton... **BARRY WILLIAMS** is glad our California summers don't end 'til October because it makes the surfing season longer... Something tells me this column had better end... 'til next issue!
