The question on most people's lips in Hollywood these days is—**BOBBY SHERMAN**, are you married? How did this rumor start? It began when famous tinseltown gossip columnist, **RONA BARRETT**, said on her own TV show that **BOBBY** had been married for a year! The girl? His long-time favorite, pretty **PATTI CARNEL**. According to **RONA**, **BOBBY** and **PATTI** were married on September 26, 1971 by a priest in a Catholic Church near Encino, California. But when I asked **BOBBY** himself whether he was married or not during his recent guest-shot on **SONNY AND CHER**'s show, **BOBBY** said the rumor wasn't true! "I'm not really sure if I'm ready for marriage at this point of my career," handsome **BOBBY** declared. And true enough, **BOBBY**'s career is really into high gear! **BOBBY** will soon be making his way to Yellowstone National Park for a "Landmark Special" which will show all the great beauty of that famous tourist spot. In the meantime, guess **BOBBY** has enough to do just snuffing out those marriage rumors for once and for all... And for all those rumormongers who've been hinting that **DONNY OSMOND** has found a special girl, let's just let **DONNY** himself set the record straight! Says **DONNY**: "I haven't had steady dates yet. Double dates on occasion, but my parents believe I should be 16 before I take

WELL, NOW, let's see what Right On has written about the J-5 this month!

a girl on a single date." Which means that millions of YOU will have to wait a little while before **DONNY** might pick YOU as his special one!... Wonder why **Love Story**'s **ALI MacGRAW** is divorcing her hubby, Paramount Films' exec **BOB EVANS**? What it comes down to is too much work—for **BOB**! Seems **ALI** got tired of staying home day after day while **BOB** toiled long hours at the studio. When **ALI** went to Texas to star in **The Getaway** with **STEVE McQUEEN**, most of **ALI**'s friends hinted that the marriage was over—and they were right! Because once **ALI** discovered groovy **STEVE** down in Texas, it wasn't too long before she flew back to California to file for divorce from **BOB**! Now Hollywood's all abuzz that **STEVE** and **ALI** will wed... Speaking of splits, no one was

too surprised when **ELVIS** left his lovely **PRISCILLA**. **ELVIS** is not exactly the homebody type—he loves to stay up late and pal around with his friends — while **PRISCILLA** wanted to provide a solid home for **THE PRESLEYS'** daughter, **LISA**. Now that the split is official, **ELVIS** is seeing New York actress, **SANDRA ZANKIN**, while **PRISCILLA** is seeing a lot of her (and **ELVIS**!) karate instructor, **MIKE STONE**... Darlin' **DAVID CASSIDY** has something new in his life—a \$16,000 BMW sportscar! **DAVID** is a very smart young man who is always saving the money he earns, so I think it's nice to hear when **DAVID** allows himself to spend some money for a little fun! After all, with the priceless joy he gives to millions of his fans—**DAVID** deserves it, doesn't he?... Finally, the scoop on why **Emergency**'s **RANDOLPH MANTOOTH** is a bit shy about talking to reporters. When **RANDY** was just getting started in Hollywood a couple years ago, he was persuaded by his studio to give an interview to a magazine of "dubious reputation." What does that mean? That means the magazine's readers only liked to hear scandal, rather than the bright side. Anyway, after **RANDY** gave them an interview and saw the result—a cheap and silly article—he says he vowed never to give any more interviews. Which, I suppose, is understandable, but I hope **RANDY**
