DAVID IS AMAZING

To everybody who hasn't been to one of David's concerts. When he comes to your town, GO! It'll change your life. David in action is really amazing! Also, if you don't have his solo album, get it. It's my favorite album of all of mine, or my tapes! You'll love it as much as you love him!

After awhile I got to thinking and started to cry because I knew I was wrong and knew it would hurt you. I know you would not do this to me if I cared for someone else and still
