

DAVID: "I love you"

You write me such beautiful letters
You make me feel so good inside
I try to be a better person for you
You believe in me
Without you everything else would seem pointless
You are hope and love and everything wonderful
You really care what happens to me
I need you to be happy
No day is blue when you're around
You remind me where things are really at
I like being with you
Your life touches mine in a very special way
