

JOHNNY RIVERS

LINDA RONSTADT

for Chris in an upcoming episode of "Longstreet" starring **JAMES FRANCISCUS**.

LINDA RONSTADT's opening at the Troubadour in Hollywood wowed a capacity audience. She looks better than ever and sang all her hits. She even received a standing ovation for her hit single "Long, Long Time."

JOHNNY RIVERS also appeared at the Troubadour recently, his first appearance in Los Angeles in more than a year. Johnny, who made the Whisky A-Go-Go famous for his performances in the 60's, has chosen to abandon the loud rock club for the folkish, mellow, laid-back atmosphere of Hollywood's folk haven. His performance was flawless and he highlighted many selections from his current United Artist album, "Home Grown." Incidentally, "Home Grown" is Johnny's first recording since "Slow Slim Slider."

DAVID CASSIDY delayed shooting for six weeks on "The Partridge Family" set while he recovered from his recent operation. He was in the hospital for several weeks, then recuperated at the home of his business manager. The hospital had such a flood of fan mail and gifts, David couldn't believe it! But he said knowing his fans cared so much really made him feel a lot better.

See you next issue!
