

the LO DOWN

No, *no*—a thousand times NO!! Dashing DAVID CASSIDY is *not* married to a woman who has two children by a previous marriage! If you young 'uns don't stop believing all that absurd jive you read in those *el trashed* magazines, you're gonna be put on "suspension!" David *does* date a lot of different girls and *sort of regularly* sees pretty young actresses JUDY STRANGIS and ROBYN MILLAN. And, yes, it's true—when he was skiing in Switzerland on his vacation a couple of months ago, he *did* indeed send for one of his secret Hollywood sweeties to join him for a few slides down the snowy slopes. After all, a boy *does* get *lonely*, you know!

Make way for MARC BOLAN, England's latest and greatest gift to the American teen scene. Long a favorite in Great Britain, Marc is now capturing the hearts of many a Stateside teener. For more on Marc, see page 22. Meanwhile, take a look at him (on the left) with his buddy-pal, another talented composer-musician-singer—ELTON JOHN. This 16 exclusive pic was snapped when these two British bombshells were recently featured on England's Top Of The Pops TV show.

Alas and alack, it does indeed look like your fav PF "mommy" SHIRLEY JONES is going to get herself divorced from her real-life hubby, actor-singer JACK CASSIDY. Jack, as you know, is DAVID'S dad and after he divorced David's mom—actress EVELYN WARD—he married Shirley and they have three adorable sons. Anyway, let's hope and pray that all this blows over and that Jack and Shirley are reunited.

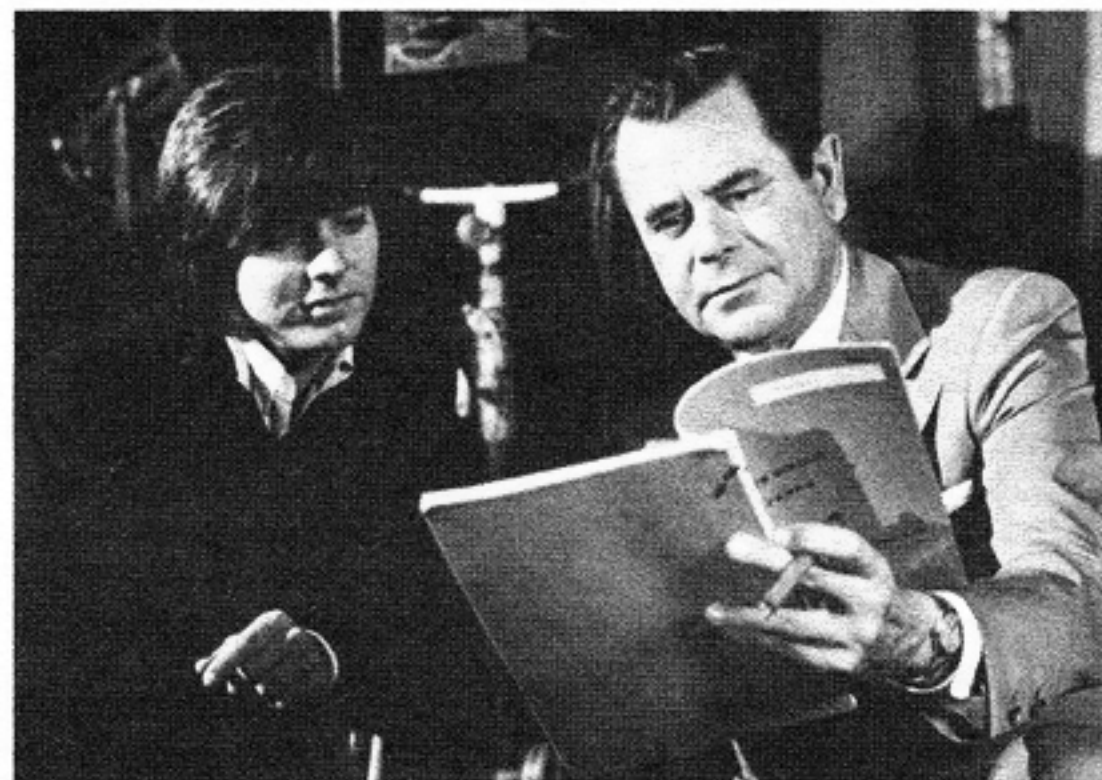

Take a gander at the brand new and—as ever—beautiful BOBBY SHERMAN pictured here going over his *Cade's County* script with actor GLENN FORD. Hope you caught Bobby's super-acting when he did *Mod Squad* and *Cade's County*. For more on Bobby, turn to page 13... Too bad that producer JOE LEVINE cancelled his plans to shoot *Ferdinand & Isabella* starring JOHN PHILLIP LAW. But never fear, all you little Law-luvvers, cos you'll be seeing plenty of John in *future* flicks 'n films.

Flash! Pretty SUSAN DEY finished her featured role in the movie *Skyjacked* and is now preparing to get back to work on the PF set when the series starts shooting late in May. That big grin on Susan's face these days is brought on by her happy and somewhat serious romance! Yep, our girl Susan has been steady-dating for several months. The lucky guy is a young director-writer on *The Partridge Family* show. More later!

EDDIE HARDIN and PETER YORK had their musical beginnings as members of the Spencer Davis Group. They've now split to form their own duo called HARDIN & YORK—and their first London LP effort is *For The World*. It's a wild 'n woolly rocker—grab a copy!... The latest doin's of TOMMY ROE—pop singer extraordinaire—include *Beginnings*, a super ABC LP stuffed with good-time entertainment. His hit single *Stagger Lee* can also be heard on this album, so don't miss the fun—catch up with talented Tommy.
