

# \* David's Dream

*You may dream about being David Cassidy's bride one day, but have you ever given a thought to where you would live together? David has! The image of his home existed only in his mind until three very talented young students of architecture at Georgia Tech. brought David's dream house to reality! When David saw the completed model and plans, he fell in love! See if you think you might be the girl to share his home!*

**A WINDING WALK LEADS UP** to David's house, and everywhere you look there are flowers and trees. The outside is all wood and cool, grey glass; the roof he plans to have is tile. Once you approach the huge, hand-carved door, you see a waterfall and a quiet reflecting pool.

**ONCE INSIDE, YOU SEE ANOTHER** pool in the entry, surrounded by a garden. Skylights bring the sunshine indoors. One of the first things you notice is the use of David's favorite colors in the dark hardwoods, the browns & burnt oranges of rugs, the casual but elegant furniture.
