

New and exciting things are cooking over at the **BRADY**'s second home, Stage 5 at Paramount in Hollywood, that is. The grapevine is buzzing with news about the **BRADY BUNCH** going on tour next season in Europe! They conquered Hawaii, hands down, so now they have their sights set on the other side of the Atlantic.

Not only are they really working as a group but they are beginning to take off in the solo department. **FLORENCE HENDERSON** and **MAUREEN McCORMICK** just finished an episode where they did a duet together! Don't miss the show, it's the one where the whole **BRADY BUNCH** is asked to entertain the PTA. **MAUREEN** is awfully excited to be able to show off her voice. And it's a beautiful one too. She confided that she is hoping to combine music with acting in the future.

And if that's not enough, a close friend of **EVE PLUMB**'s says that **EVE** has something up her sleeve! She's been rehearsing a new area of her talent, but so far only her family and her friends on the **BRADY BUNCH** set know what it's all about!

What is she up to? She's working on her impressions! So far she's done **JOHN WAYNE**, a German version of the **THREE**

BEARS, and the singing voice of **JULIE ANDREWS**. There's just no end to the untapped talent floating around on the **BRADY BUNCH** set.

TBS was so thrilled by all the excitement at Paramount that we decided to run over to Columbia Ranch and check out the **PARTRIDGE FAMILY**. **DAVID** told us very modestly that he was just presented with another Gold Record. This makes No. 7! The record was given to him by the president

of Bell Records. **DAVID** is so thankful for all the loyalty you are giving him that he's making a real effort to **personally** answer as many of your fan letters as possible. He knows that you are the

reason for its success and it's his way of saying thank you.

DAVID is very sensitive about his music. We asked him which singer he would really like to trade places with if it were possible and he surprised us with his answer, by saying it would be impossible for him to slip into someone else's shoes because he wouldn't know how they feel about **their** music! "Anyway, I'm happy with things the way they are," he smiled.

MICHAEL JACKSON has been a real rat lately. You read that right. He went to see "Ben," the sequel to the movie, "Willard," about all those trained rats. He not only freaked out on the rats but he loved the music that was written for the movie. He made a wish that he could someday do a record of the music score from "Ben." He must have wished on a magic star because, sure enough, his wish came true. Now you can buy **MICHAEL**'s latest single, from the "Ben" soundtrack!

The **OSMOND** fame has spread all over the world! They even met the Queen of England a few months ago, but word has come at last that **DONNY** is now recognized as not just a star in Great Britain, but a **SUPER STAR!** **DONNY** talked to a reporter in London about his new fame and about being so young. The reporter expected **DONNY** to be unhappy about having to do one-night stand tours in Europe, but **DONNY** surprised him!

"We all love the touring, even the one-night stands, though it means loss of privacy and is very exhausting. If our fans want to know about our personal lives, that's fine with us. What better way to share what we have with all of you who come to see us."

It seems that **DONNY** has proven something once and for all. And that is, the more he works and travels, the more he likes to work and travel!

And, here's a hot tip from **MRS. OSMOND**. At their home in Utah,

MICHAEL AND HIS brothers are always busy recording—separately, too!

she is busy with a new project. She has decided to collect all the articles that have been printed about all of her talented children and then publish a book about them! It will be a huge biography of her famous sons! She doesn't have any idea how long it will take to complete, but she's giving herself plenty of time. Good luck, **MRS. OSMOND!** We can hardly wait for our copy!

BLOOD, SWEAT AND TEARS, is relaxing back in the good old U.S.A. after a smash tour of Europe. They would like a little more time to relax in the comfort of their own homes before hitting the road again, but they say they really have the bug for performing and can't wait to get up in
