

CALIFORNIA CALLING...

Keep up with what's happening out West with our gal, Janey Milstead!

DAVID CASSIDY has been booked into the Hollywood Bowl for a concert on August 4, and his Southern California fans are already clamoring for tickets. They aren't on sale as of this writing, but watch them go like the proverbial hot cakes when they're available. David's Easter tour was standing room only and he got back home with a list of things he wanted to get done before his next round of concerts. Unfortunately, all he got to do was see "The Godfather," because he spent the next few days in bed with the flu that's been whizzing around Hollywood like Super Virus.

SAM HYMAN, David's 21-year-old roommate, has decided to pursue an acting career. At present he's up for roles in two films, and here's hoping there will be good news to report on his progress soon.

Remember **RUDY RAMOS** who played the character of Wind on the last season of the television series "High Chaparral"? Rudy has just finished his first record album. It's called "Hard Knocks And Bad Times." Watch for it

to be a big hit. It's on the Fantasy Label, the folks who made Creedence Clearwater Revival famous—or was it vice versa?

Speaking of **CREEDENCE CLEARWATER REVIVAL**, their new album "Mardi Gras" is the most-played LP in California at the moment. Today California, tomorrow the world? Considering the success of every album this group makes, you can almost bet on it.

THE OSMOND BROTHERS spent two days relaxing on the beaches of Hawaii while they were there for their concerts in Honolulu. Unfortunately, they had to go to isolated spots because fans kept hovering about and blocking out the sun.

The pilot for **GEOFF DUEL'S** projected television series didn't sell to NBC after all, but there's still a chance it'll be picked up by one of the other two networks. If not, Geoff says he won't be upset at all. He has lots of other irons in the fire.

Look for **BLACK SABBATH** to start aiming part of their material to a younger audience. So far, the rock

group's been vastly successful with the "underground" set, but they're interested in making music for younger fans, too. They say their next album will have something for everyone.

PEGGY LIPTON definitely doesn't have extravagant tastes. When she was offered the use of Barbra Streisand's ultra-ultra dressing room, she decided she'd rather start her working days in something less fancy, and asked for more simple quarters.

Remember those men from U.N.C.L.E.? One of them, **DAVID McCALLUM** to be exact, is in a new series called "The Colditz Story." It's now shooting in Germany and London, and will probably be seen on the airwaves here this summer. **ROBERT VAUGHN** is keeping busy too. He has just written a book ("Only Victims") which is getting rave reviews from critics.

Things are looking even brighter for **BOBBY SHERMAN** if that's possible. The final ratings are in and his guest-starrers on "Mod Squad" and "Cade's County" were the highest rated shows
