

DAVID seems to be a very popular name these days! **DAVID CASSIDY** just had a car built for himself that cost \$35,000! They call it a customized 1926 "Touring T" and is it ever wild! It can be driven on the street like a regular car or used occasionally on a dragstrip! The interior of the car is done with crimson red crushed velvet upholstery and the outside is painted in 21 shades ranging from Royal Mood Indigo Purple to Sapphire Harbor Blue. All this sprayed over an exotic mixture of crushed pearls, oriental fish scales and diamond dust! Wow! There's a picture of it for you in the meoww newsreel!

DAVID says he really thinks it's wild and plans are underway to use the car on "The Partridge Family" show next season!

Meanwhile, lucky fans living in Lansing or Flint, Michigan, Chicago, Milwaukee, St. Louis, Baltimore, Louisville, Syracuse, Rochester, Greenville (S.C.) Richmond and Philadelphia, can see the car in person as it's toured through their city (without **DAVID** unfortunately!).

DID YOU SEE Andy and David Williams on the Jonathan Winters Show? They're really talented young guys! They just got back from a trip to London where they were a sensation! They appeared on all the top TV shows!

MAUREEN McCORMICK, (don't you think she looks beautiful on our fashion pages?) really surprised me when I saw the car she drives. She's such a little girl and the car seems to big for her to handle. It's a Mercedes—the big kind—and **MAUREEN** loves it. She's only been driving since September but she says she wouldn't trade the car for anything! It's a diesel model and that means the gasoline is cheaper and **MAUREEN** likes that since she drives into Hollywood everyday for school. That's about an hour each way because of traffic "but riding along in a nice car makes it more enjoyable," laughs **MAUREEN**!

I talked to **RICHARD THOMAS** last week and told him that he's getting lots of mail here at Tiger Beat! He was so thrilled and sounded happy! **RICHARD** says that he still can't get over people wanting to write him letters! "I've always been a loner," he said, "and now I can't believe that so many people really like me for myself. It's such a good feeling!" Who could

help but love **RICHARD**? He's such a warm, sensitive young man and don't you just love "The Waltons?" **RICHARD**'s trying to answer all his mail personally, so just send your letter along here to Tiger Beat! I'll see that he gets every one!

I looked up at my window a little while ago while typing this and I saw some strange red writing on the glass! My curiosity aroused, I got up, walked around the desk and stood on my tip-toes to read it! What do you think it said?

SINGER LANE CAUDELL'S got such dreamy eyes he can hypnotize you! They turn from grey to green to blue depending on what's he wearing!

The **HEYWOODS** put on a swinging show in San Bernardino, California, and they shared the bill with the **BRADY BUNCH** who've put together a whole new act! It's the first time the two groups had a chance to meet and they all hit it off right away!

The **BRADY'S** won't be back filming in "The Brady Bunch" until June, so chances are their new act may come to your town, and maybe the **HEYWOODS** will be with them! We've got some pix of the **BRADYS** and the **HEYWOODS** next month in Tiger Beat so you can be part of all the fun!

I LOVE BILLY Paul's "Me and Mrs. Jones," don't you! He sings great!

RICK SPRINGFIELD'S handwriting is too much! It's so very fancy!

"Hi Sharon, Love Michael." I recognized the handwriting immediately and had to laugh. It's just like **MICHAEL GRAY** to do something like that! He's always popping into the office for this or that, to visit, pick up mail, or write his "Me and The Little People" column, but I've never had a message on the window before!
