

POSSIP

Rick's recovered

Poor old Rick Price the bass player with Wizzard, has been ill recently. He's had something rather nasty called pleurisy which affects the lungs. In fact Rick had to spend several days in bed recovering from what can sometimes be quite a nasty illness. But we're glad to report he's now back in fine fettle!

Problems for Phil

Phil Lynott of Thin Lizzy is a grandfather! And before we cause mass confusion we'd better explain... Phil's pussycat gave birth to five lovely kittens recently! But as he's away so much Phil couldn't stay at home to look after his 'grand-children'. Luckily friends quickly snapped them up so his problem was solved.

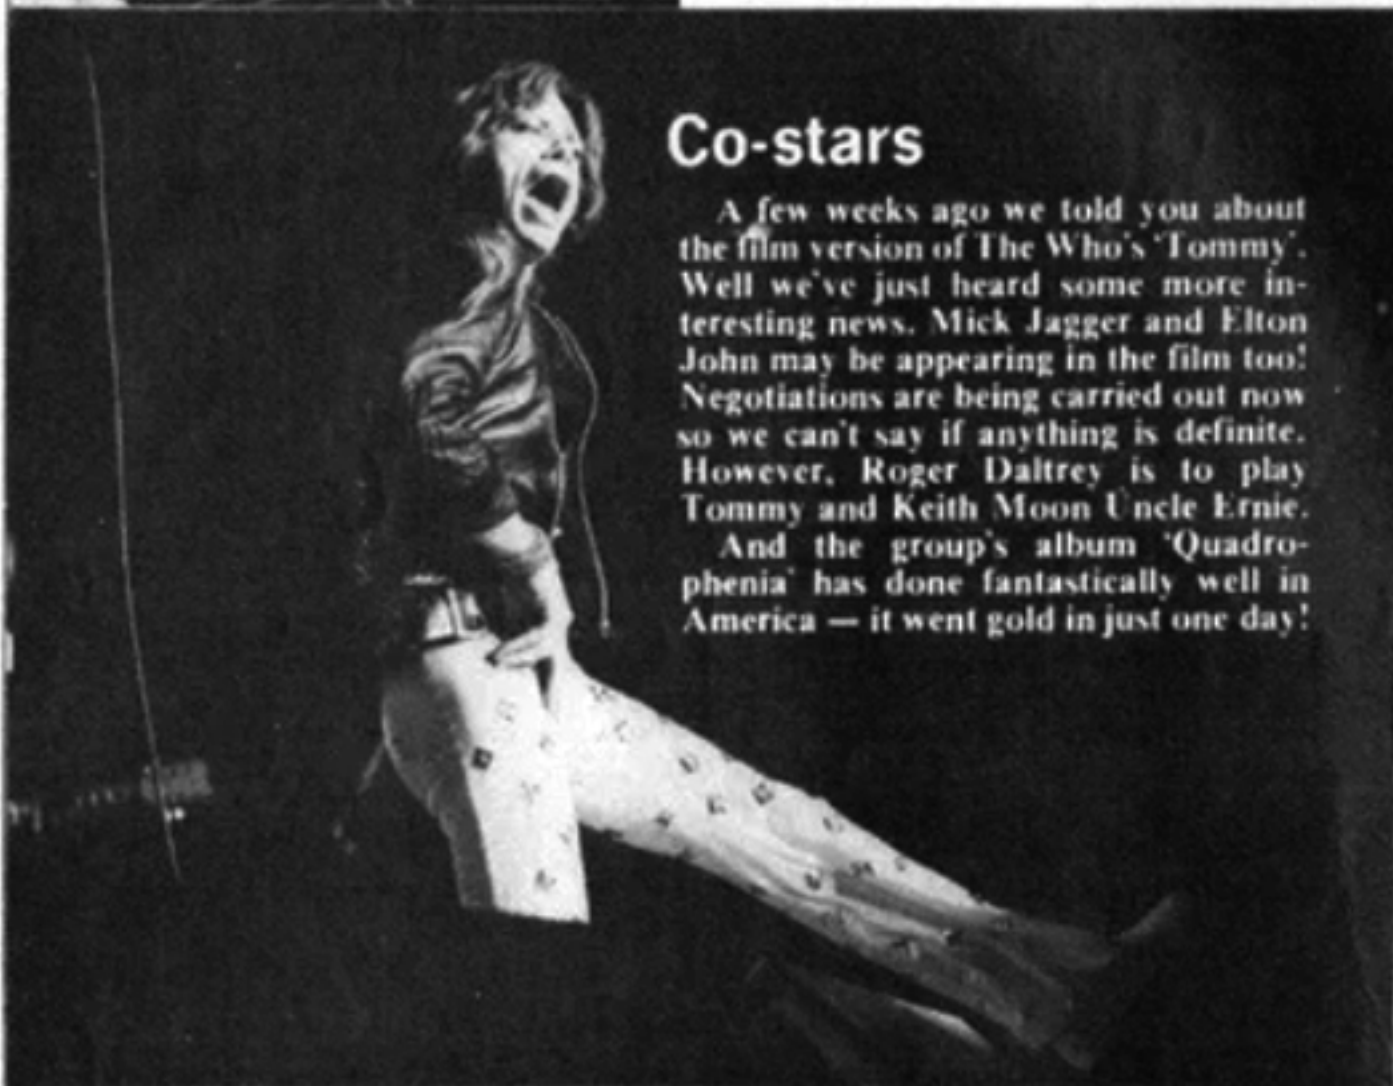

Co-stars

A few weeks ago we told you about the film version of The Who's 'Tommy'. Well we've just heard some more interesting news. Mick Jagger and Elton John may be appearing in the film too! Negotiations are being carried out now so we can't say if anything is definite. However, Roger Daltrey is to play Tommy and Keith Moon Uncle Ernie. And the group's album 'Quadrophenia' has done fantastically well in America — it went gold in just one day!

New debut for David

Hold on to your seats everyone! David Cassidy is to make a film in the near future... His management have been looking at over a hundred film scripts!

And the chances are that David won't be singing in the film — he wants to do something completely different. We know he'll be just great!
