

DAVID'S LONDON PHOTO DIARY!

This past fall, David took a whirlwind tour of London, France, Luxembourg, Germany and Holland. He didn't do any concerts, but he was kept awfully busy anyway, as you'll see from these pictures! (For David's own reaction to his trip, turn to his column on page 52!)

David's first stop was London, and this is the beautiful yacht in the Thames River where he stayed. It belongs to a European businessman, and is generally rented out to prominent businessmen and visiting heads of states. David is the first entertainer to use it.

During a press party aboard the yacht, David fills his plate while Sam Hyman looks on.

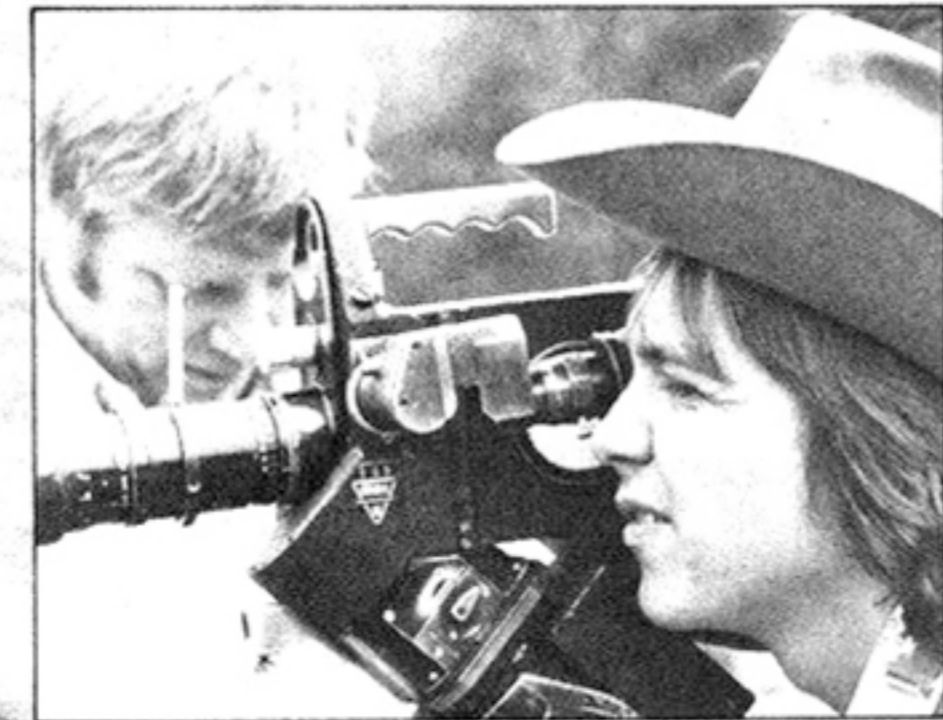

The evening after his press party, David hosted a party for TV and radio producers and record company executives. But he took time out to watch himself on *Top of the Pops*!

David's *Top of the Pops* appearance was filmed at producer Robert Stigwood's estate outside London. David was flown there by helicopter. Between takes, David played a fast game of croquet with three English models who were also in the show.

Then it's back to work. David checks a camera angle!

There's also time to check out a comfortable garden swing.

David poses with an antique car on the Stigwood estate.
