

David Cassidy Answers Back

Another interview from YOU! This week's questions have been sent in by **Sharon McGeough of Stoke-on-Trent, and David Cassidy (natch!) supplied us with the answers! These are they!**

Will David always live in the U.S.A. or will he ever come to live in England?

David says that England is a great place and he hopes to visit it regularly, but he thinks the States will always be 'home' for him.

Did he like living on the yacht, last time he visited England?

David tells us he sure did! It was something different — and he even got used to all the bumps!

On the romantic side, what does David look for in a girl?

Personality-wise, David looks for sincerity — also a fair amount of intelligence! Look-wise, anythin' goes — as long as it's natural.

Is there anything David has always wanted to do?

He'd like to develop his acting ability, he tells us, and perform a serious stage-play.

In all the records he has made, which one is David's favourite?

Wow, that's a toughie! David said that, quite honestly, he liked all the material he recorded and he hasn't any real favourite!

Is there any chance of me meeting and talking to David personally?

Who can say Sharon, but David likes the idea! Perhaps you'll bump into each other at the airport some day, or so he says!

What sort of thing makes David lose his temper?

Cruelty to animals!
