Q & A HOLLYWOOD? RUMORS

Dear FaVE,

My girlfriend told me that Elvis Presley was born on May 4, 1939, but I say that he was born on May 1, 1935. We always start a fight about it so please tell me when his birthday is.

Mary
Toronto, Canada

Dear Mary,

Stop the feuding! Elvis Presley was born on January 8, 1935 so you were both pretty close! Hope that settles it!

Dear FaVE,

Is it true that Susan Dey had an operation and had to have most of her hair cut off?

Melissa Marshall
Manchester, Missouri

Dear Melissa,

Susan Dey never had an operation, wasn't even ill, and still is the lucky owner of long, beautiful tresses!

Dear FaVE,

I read where the Osmonds have a home in Ogden, Utah and in California. Well, why does our mail go to Salt Lake City when they are in California almost all the time and not in Utah? That proves they never see any mail and I'm never writing again!

Toni Copeletti
Pompano Beach, Florida

Dear Toni,

Whoa—hold your horses! You're absolutely right that the Osmonds have homes in California and in Utah. There is the Osmond home in Ogden and they have a home in Los Angeles where they have to stay for business reasons. But don't get upset thinking they never see any of their fan mail. They see every letter that is sent to them! The reason for the Salt Lake City address is that that is the address of the main office of the Osmond Fan Club. Actually, this is the Osmonds' way of making sure that not even one letter gets lost! So keep on writing—they'll love each letter you'll ever write.

Dear FaVE,

I heard a terrible rumor that David Cassidy and Danny Bonaduce almost died of overdoses. I say it's a lie and my friend says it's not. Who is right? Hurry and please tell me.

Julie H.
Bonnyville, Canada

Dear Julie,

Good for you that you denied this ugly, horrible rumor!! And your friend ought to be ashamed of herself for thinking there was a grain of truth in it in the first place. May we emphasize just one more time

that two of the last people in the world to be involved with anything like this is David Cassidy and Danny Bonaduce. Thanks for writing.

Dear FaVE,

I heard that Donny's teeth are yellow and to keep them white he polished them with white shoe polish. Is this true?

Suzy Medina
Hollister, California

Dear Suzy,

Well, that's certainly one way of putting your foot in your mouth! But Donny's teeth have never been polished or even touched by shoe polish—they're really that white naturally.

Dear FaVE,

I would like to know if Richard Hatch that plays "Phillip Brent" on the television show, "All My Children" has quit the show or if he will be returning.

Angela Hollearn
Winchester, Kentucky

Dear Angela,

Richard is currently in Europe filming a movie and that is why he hasn't been seen recently on the program. When he will return is not
