

THROUGH THEIR RAINY DAYS' MAZE!

WHAT DO YOU DO on rainy days? Read, listen to music, mope in your room, have friends over for some indoor games? Well, rainy days usually aren't much fun, especially if you're all alone in a quiet room. The Partridges and the Bradys love fun and games. They particularly love puzzles, brain teasers, and mazes. So they want to pass this maze on to you, to amaze you and amuse you on an amiable afternoon. Danny Bonaduce, who's really a genius at these things, tells us that an amazingly-good-maze-doer will solve this one in one-minute-and-a-half. Clock yourself at your skill doing this rainy day puzzle.
