

NOT JOHNNIE

DJ Johnnie Walker really goes for new clothes in denim that look well-worn when you buy them!

"I haven't worn a tie for years—I can't stand them," he told us. "I wear denims mostly and buy a lot of stuff from Kensington Antique Market."

"I also like the special shirts made up from odd bits of denim, lots of bits, maybe with paint on the back and the bottom cut off and frayed."

"I'm afraid I'm just not one for wearing suits, jackets and other formal clothing. It's just not me."

Music STARSCOPE

We've met before!

How about this for a coincidence? When Mick of Springfield Revival was a boy in Melbourne, he had two very talented neighbours—Peter and Marty of the New Seekers! "We were good mates, actually," Mick told us. "I remember playing billiards with them at our youth club when we were about fourteen!"

I have to admit it—they always won!"

Small world, isn't it?

DAVID'S NEW BIKE

David Cassidy had to get himself a new motorbike when his other one was stolen by some nasty person! But he tells us he likes his new one better anyway! So there—to the thief!

VERY 'UMBLE

Ever wondered if there's any danger of the Osmonds becoming big-headed when they're constantly being told how great they are?

"I don't think there's any chance of that happening to us," Alan told us. "We came up the hard way. I remember when we first started out we were doing every single show offered to us!"

"We toured Sweden for six weeks every year and every night we'd do two or three shows! Every show would be in a different town, but when you're completely unknown you just can't be choosy!"

Because they've 'paid their dues', they're still pretty humble people!

FOCUS TAKE OFF

First they conquered England and now they've done it in America—all in the space of one year!!

Suddenly they are regarded as one of the hottest new bands in the world.

Thijs Van Leer (organ, flute, vocals); Jan

Akkerman (guitars and lute); Burt Reiter (Bass guitar and vocals) and Pierre Van Der Linden (drums) began their group life as a backing band for the Dutch version of Hair, but that wasn't for long.

Now they're really going places!!
