Dear FaVE,

I just flipped over Michael Ontkean, star of ABC's "The Rookies!" Please tell me if he's done much acting before, or if "The Rookies" is a first for him?

Love,
 Penny Aleshire
 Odilon, Mi.

Dear Penny,

"The Rookies" is the first TV series that Michael has starred in, although this handsome newcomer has also appeared in a number of television shows and movies. Michael may be familiar to you from his guest appearances on "The Partridge Family," "Ironside," "Dan August," and "Longstreet," as well as being the guy who falls in love with a bottle of 7-Up in the popular TV commercial! Michael has also appeared in four movies—"The Peace Killers," "Hot Summer Wind," "A Time to Every Purpose," and, most recently, "Necromancy." If you want to drop Michael a line, do so in care of the ABC Studios, 4151 Prospect Ave., Hollywood, California, and tell Mike that you read about him first in FaVE!

Dear FaVE,

I heard that Danny Bonaduce's sister, Cecelia, got married sometime last year. Is this really true? If it is, please extend my best to the happy couple!

Sincerely,
 Tina McGee

Dear Tina,

Your well-wishes have been relayed to the bride and groom! Cecelia Bonaduce became Mrs. Bill Staley in June of '72, and among the guests in attendance at the lovely reception were family members, friends, FaVE editor Liz Dagucon, and a happy bunch of Partridges!

Dear FaVE,

I heard a disc jockey on the radio say that the Raspberries' album is scented! Is he joking with his listeners, or is this really true?

Linda Kay Jeffries
 San Marino, Ca.

Dear Linda,

Nope... the d.j. you listened to wasn't joking... he's really telling the truth! The Raspberries' album on the Capitol label is indeed raspberry-scented. And if you buy it now and sniff it in the months to come, it'll still retain its fragrance!

Dear FaVE,

My girl friend told me that Carly Simon looked after James Taylor when he was ill with hepatitis. But wasn't she taking a risk with her own health by staying with him all that while?

A concerned fan,
 Lisa Meriweather

Dear Lisa,

Under most circumstances it would've been dangerous for Carly to be so close to James while he was ill, but Carly's doctor gave her a hemoglobin inoculation for protection, so she stayed well and saw to it that James was brought back to good health too! Isn't it neat that James & Carly are now Mr. & Mrs. James Taylor?

Dear FaVE,

I love David Cassidy and always wondered who his favorites were in the entertainment field. I'm hoping you can answer this for me.

Thank you,
 Sabrina M.

Dear Sabrina,

Thank you for writing! Naturally, David likes his co-stars on "The Partridge Family" and considers them among his favorites, but he also admires the talent of British singer Elton John, and would someday enjoy doing a musical TV special with him.
