

# CALIFORNIA CALLING...

Keep up with what's happening out West with our gal, Janey Milstead!

You can expect to see **DAVID CASSIDY** on more TV shows from now on and one of them will be his own special! Dunno exactly when that's going to happen, but it's inevitable. David really dug appearing on the **BOB HOPE SPECIAL** and has decided to turn down less offers and accept more. He did have one problem when he got all the way through one of his numbers and found out he wasn't wearing all his clothes. Don't panic now, it was just his belt he'd forgotten and when he was fully dressed, the segment was re-filmed without a hitch (heh heh).

David bought some far-out new clothes when he was in England recently. He went shopping in King's Road

and Oxford Street, with a host of fans not far behind and before they caught up with him he purchased several of the velvet suits they seem to be able to make better in England than anywhere else. David also fell in love with another car! When he spent a day filming for television at the country estate of Robert Stigwood, he flipped over a 1916 red Rolls Royce, but it definitely wasn't for sale. It's just as well, since David had a new car waiting at home; his new silver gray BMW, a super-sharp German sportster.

There's talk around Hollywood that "The Brady Bunch" is standing on somewhat shaky tundra (that's a fancy word for earth). The ratings just aren't

Watch for Darby's new movie "Jamaica Reef."

up to par and you know what that means. The cartoon show seems to be doing nicely, but the weekly evening thingy, well the future has looked brighter.

Let's all zap them with some good vibrations, okay? If worse does come to worse, the **BRADY KIDS** could probably open their own boutique! Their teacher started them on macrame belts not too long ago, and now they're really into the natural craft scene, not to mention being very good at it!

**DANNY BONADUCE** has a new love, but don't worry, he isn't engaged or anything. But, if he were, you can bet his beloved's ring would be made of turquoise and silver! At the moment, that kind of jewelry *is* his new love. He's started a collection and can be found prowling through swap meets and garage sales and artsy shops, looking for more! When he went to Utah on a Bike-athon promotion for "The Partridge Family," he really freaked because that type of bauble is less expensive and very well made there by the Indians.

**THE OSMONDS** were back in Utah following their stint in Las Vegas and before their tour of England. They have a fastastic house there where everyone
