

YOUR STARS

DAVID CASSIDY: ARIES

Character — Good Points: Extremely sincere with people and honest in his personal relationships.

Bad Points: Tends to get very depressed and exhausted when the pressure of work becomes unbearable.

Emotional Life: Like all great artists, David is a very sensitive guy. He likes his companions to be sympathetic to this and to give him the emotional support he needs.

The Future: His hectic life is not natural to him, star-wise, and sooner or later he will find a life-style that lets him relax more, without giving up his greatest love — music.

RICK SPRINGFIELD: LEO

Character — Good Points: Leo, the sign of the Lion. Rick is brave, chivalrous and protective.

Bad Points: A born leader, he can sometimes be bossy and dominating, exhibiting a fierce temper if crossed.

Emotional Life: His emotions are as big as his heart — and he's Richard the Lion-Heart! However, he'll always have the strength to control them.

Future: The stars hold a lot in store for Rick in the next few years. Great things will come his way, both in his singing and his private life. His is a face we'll see a lot more of.

GARY GLITTER: TAURUS

Character — Good Points: Taurus is the sign of the Bull — and like a bull, Gary has tremendous drive and ambition...

Bad Points: ... but also like a bull, he has a fiery temper which sometimes catches him unawares!

Emotional Life: Once emotional ties have been made, Gary shows unswerving loyalty. He is extremely strong, and not easily hurt.

Future: This will be a great year in his career, with many new possibilities opening up for him. We wish him the success he deserves!

MARC BOLAN: LIBRA

Character — Good Points: Like all Librans, he's got two definite sides, has Marc — one side is warm-hearted, generous and amusing, but

Bad Points: ... the other is dark, brooding and hard. A fascinating mixture of star and boy.

Emotional Life: He suppresses the anxious, soft part of his heart by a great effort of will. He knows it's the only way to survive in the hard world of pop.

Future: Will reach wider and wider audiences, probably through books or films. In this way, his fans will get to see the many sides of Marc like never before!
