Hot diggety! That beautiful *Brady Bunch* will be back with us on ABC-TV again next fall—according to the network “powers that be”! In fall of '73 **Barry, Maureen, Chris, Eve, Mike and Susan**—and don't forget **Florence Henderson** and **Robert Reed**—will be on your telly screen with some brand-new segments after a summer of happy re-runs. Much thanks for saving the Bradys go to all of you **16** readers who were sincere enough in your love for the **BB** to send your cards and letters to the program directors of ABC-TV asking them to please keep the show on.

Mike Jackson just loves to make phone calls—whether it is midnight or at 5 a.m. His latest phone-friendship came when he conned **16's** Hollywood Editor, **Jean Lewis** out of **Andy and David Williams'** home phone number. Now, **Michael, David** and **Andy** keep those wires burning with red-hot secret conversations. Hint: most of their gossip is about girls and music. More later! . . . **David Cassidy's** closest friends are really worried about **your** favorite TV singing-idol. Seems **David** is so exhausted and nervous lately from overwork that he immediately breaks out in **hives** when pressured! He's also reported to be taking an occasional tranquilizer to calm his shattered nerves! Let's hope adorable **David** is able to slow down one of these days soon and start spending more time building his dream home on the 24 acres he just bought (for a mere \$139,000) on Hawaii's Maui island.

Kris Tabori, Tim Bottoms and **Jeff Bridges** are the terrific trio you'll soon be seeing in

the movie version of Eugene O'Neill's *The Iceman Cometh*, being filmed by AFT. It should be in release by late summer . . . **Marjoe Gortner**, who switched from the Bible circuit to movies to a recording career, is making his TV acting debut in the CBS film *The Marcus-Nelson Murders*. Stay tuned!

Sweet and sensible **Susan Dey** was nominated by the Hollywood Foreign Press Association for a Golden Globe Award in the category of **Best Supporting Actress In A Television Series**. . . British pop fan Rachel Brennock decided to do something about her deep love for **David Cassidy, Donny Osmond** and **Michael Jackson**—so she wrote a song and darned if someone didn't come along and record it for her! Rachel's first single, *David,*

Donny And Michael is now on sale in London's record shops!

Remember **Fabian**? Of course, you do! He was that dear who made Philadelphia famous. After a long career of movie making, **Fabian** is about to return to the pop music scene with a brand-new group. When **Fabian** and his new musical gang are together again, **16** and **SPEC** will be sure to tune in to all the **Fabe**-baby happenings!

THOUGHT FOR THE MONTH:
People sometimes say, “I wonder how it feels to be on a spaceship”—and I say, “Well look around you—you are on one. How does it feel? You are on the spaceship Earth.”
