

they were inside. All during the movie, girls were popping up in the dark asking for autographs on candy wrappers! **GLOBE-BOPPING:** After returning from his European concert tour and before getting back to work on "The Partridge Family", **DAVID CASSIDY** spent a week skiing at Mammoth and another two or three lolling around his favorite isolated stretch of beach on the Island of Maui, in Hawaii.

RANDY MANTOOTH and **KEVIN TIGHE** both put their hiatus to good use with Randy taking off for Nova Scotia for almost three months, and Kevin hopping around the U.S. and finally landing for quite some time in Louisville, Kentucky.

First there were rumors traveling about that "**THE BRADY BUNCH**" wasn't going to be on next season after all, then there were rumors that they'd be traveling to Hong Kong to film the first few segs. It's now fact that the show's been picked up, and it's India and the Far East that those lucky Brady kids are probably visiting right now as you're reading this!

Don't miss Papa Brady, **ROBERT REED**, in his ABC-TV special called "The Man Who Could Talk To Kids," and definitely don't miss **EVE PLUMB** the movie star in the upcoming flick called "Huckleberry Finn." More about that when filming begins.

SOUNDS ABOUND: After returning from Japan where the **JACKSON FIVE** was on tour, **MICHAEL JACKSON** went into the studio to record another solo sound which they say is going to be even better than "Ben." Don't know how it could be bigger, though! **THE FIVE'S** summer concert trips began with a biggie in Seattle, Wash. in May. **JETHRO TULL**, those mad-caps from England, have another big hit record, "A Passion Play," and **DAVID BOWIE'S** socked it to us once again with "Giving It All Away." The new **RICK SPRINGFIELD** album is called "Comic Book Heroes" and hit the record stores in June.

ANDY AND DAVID WILLIAMS toured Japan singing with their favorite Uncle, **ANDY WILLIAMS**, and we spent a nutty afternoon together before they winged away (wang away?). If you've ever wondered what kind of girls the twins like, here are a couple of tidbits I picked up while we were discussing everything from UFO's (they believe they're a possibility but have never seen one) to how to clip dogs (they have a completely kooky four-month-old black and white cockapoo puppy named Heathcliffe). The boys love short hair on girls because it's cuter and cleaner, can stand a little bit of make-up but can't hack false eyelashes.

ALICE COOPER may be the on-stage kook of all time, but in private life he's really quite sane. He has perfectly

rational parents, just plain ole friends and has had the same beautiful girlfriend for five years. Cindy's her name, and she's one of the few who don't dig **ALICE'S** music or his image and refuses to tour with him or attend his concerts. She knows it's just a big, show-stopping put-on, but prefers to wait for him to come home to New York and her.

BOBBY GENTRY'S gone and out-done all those folks who've been appearing on stage in levis and jackets. She did the same, but had them studded with several hundred thou worth of diamonds loaned from Tiffanys!

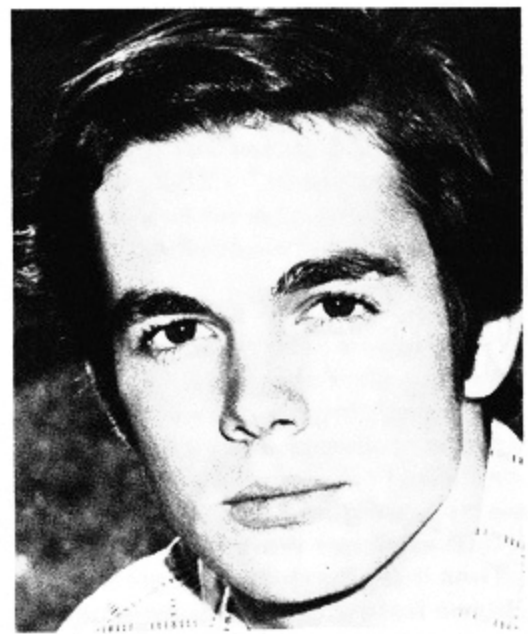

DON GRADY, formerly of "My Three Sons" has always been a super-serious musician, and he's just done an album under his real name, **DON AGRATI**. That's the title of the disc, too, and he wrote all the songs, which are really quite good. That's no surprise, though with music having been his first love all through his acting career.

WHAT GOES ON: In case you've lost track of **JAY NORTH**, he's been touring the country playing the stage role of the blind boy in "Butterflies Are Free."

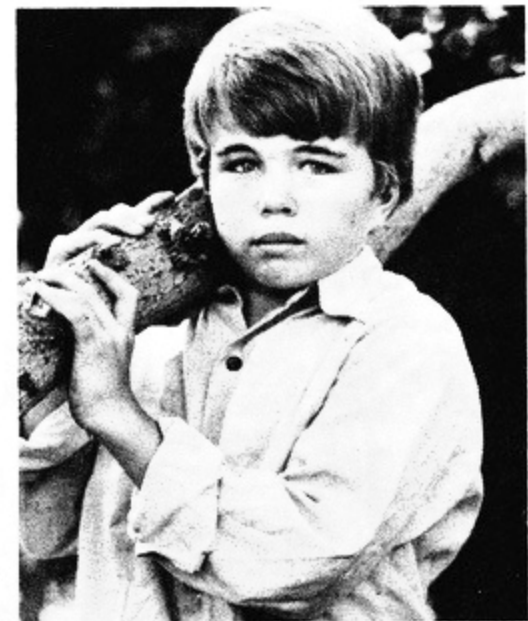

That reminds me of the old "Dennis The Menace" days, which in turn reminds me of **JOHN DAVID CARSON** who made his debut on that show as a singing cub scout when he was ten years old. **JOHN DAVID** is now 21, has worked in just about every TV show in town, and just finished "Day Of The Dolphin" in the Bahamas with **GEORGE C. SCOTT**. He's still a bachelor (rah!), lives just off the Sunset Strip and digs health foods, old movies, new movies, the outdoors and his career, which he hopes will branch out to include directing as well as acting.

RADAMES (rhymes with hip-popotamus—well, sort of) | **PERA** even shed a tear when they zipped off all his hair for "Kung Fu," but his mother, standing by the barber chair, cried buckets! **RADAMES**, by the also appeared on "Marcus Welby," "Cannon," "The Rookies," "Hawaii 5-0," and "The Waltons" last season so if you missed him first time around, catch him in the re-runs!

BEFORE I FORGET: Happy belated fourteenth birthday last April 20 to **CLINT HOWARD**, who's been acting since he was five seconds old (well, just about!) and whose list of credits would take up this whole column...**MARK SPITZ** spending money as fast as he swims these days—just bought a sailing sloop named **SUE MARK 7** (named for his new bride and his medals) and gifted **SUE** with a Mercedes speed wagon which matches his exactly...**DAVID SELBY** of "Dark Shadows" fame is busy in Brooklyn, playing one of the lead roles in the new film "Super Cops"...**GEORGE**

John Carson wants to direct and act.

Clint Howard, a long-time actor, is 14.

HARRISON is the music man of the hour what with his hugely successful "Living In The Material World" album and the hit single therein "Give Me Love, Give Me Peace On Earth"...Sounds good to me...**BO DONALDSON & THE HEYWOODS** taped their own TV special for **DICK CLARK PRODUCTIONS** called "Rockin' At The Palace"...**BEN MURPHY** may do another TV series after all, now that "Alias Smith and Jones" bit the dust...Beautiful twin concerts took place in L.A. with **THE BEACH BOYS** playing to a packed house at the Palladium and **BREAD** cooking the next night...Everybody who saw "Picture Of Dorian Grey" is really digging English import **SHANE BRIANT**...**BOBBY SHERMAN'S** set to make a movie about a young married couple who win a jillion on a quiz show...And wasn't "**JAMES PAUL MCCARTNEY**" wonderful, plus all those appearances by the visiting **BEEGEES**?...And am I not outta room 'til next issue? Love til then.
