

ONE DAY YOUR NAME COULD BE IN THE CHARTS!

climb to success. You may already play the guitar or another instrument quite well, and we'll certainly be including features which will be just right for you.

On the other hand, you may not be able to play any instrument, but have always wanted to, and we have got some really fascinating things lined up for you here which will make it easy for you to start, because it really is not difficult to learn to play.

And if you don't want to learn to play, then you can always sing, because surely you do that already whenever you get a new hit record from your favourite singer or group.

Writing songs is also a fascinating hobby. When you get talking to many of today's top stars the amazing thing is how many of them just sat down and wrote a song which later became a big hit. The odd thing is

that their first songs were often the easiest to write.

And if you haven't got £20.00 or £25.00 to pay out for a new guitar, Music World and Superstar is going to try and help you here too — because we'll be running regular competitions for wonderful prizes, including the latest guitars, pianos etc. (only one piano at a time because they are pretty expensive).

Join us on 1st February in the new Music World and Superstar. Don't forget it is going to have many of the things that are in the present magazine plus lots of new features, and we are not just going to talk about playing the guitar and going to recording studios, we are also going to run competitions over the future months and the winners will actually go into the recording studio, at our expense, to record numbers that have either been written by themselves, other writers, or would-be song writers.

10 SUPERB ACOUSTIC GUITARS TO BE WON!!!

in the February issue of the new, larger

MUSIC WORLD & SUPERSTAR

ON SALE FEBRUARY 1st

The February issue will also contain features and the latest photos of your favourite stars.
