What Everybody's Talking About!

• SINGLES OF THE MONTH

Lobo: THERE AIN'T NO WAY. Here's another Lobo-written tune that's bound to be a hit! It's got his sweet touch plus that Lobo "twang" that makes it just right. It's from his new album, "Of a Simple Man."

The Trend: PLACES. No, this is a brand new "Places"—not the old one! And it's really great! Trend is a new group, and they're all so nice... the lead is sung by B.J., and she has a beautiful voice! We'll be telling you more about The Trend on page 82!

Grateful Dead: HERE COMES SUNSHINE. Another Grateful Dead winner! This one's really slow and romantic—but with a little bit of "funky" in there... give a listen to it!

• SWINGING SOUNDS

David Cassidy: DREAMS ARE NUTHIN' MORE THAN WISHES. Wow! This album gets you both ways: for listening, and for reading! David sings some old favorites from your parents' days, like "Bali Hai" and "Fever," some great new ones like "Sing Me" (written just for him) and "Preyin' on My Mind." Inside the cover is David's own handwriting—telling what he thinks of each song and some really "inside" stories of the recording session! Great, David!

Chris and Maureen: CHRIS KNIGHT & MAUREEN McCORMICK. Hey! It's about time these two got together on records, right? We're glad they did, too, because they sound great. If you've ever been to a Brady concert, you'll recognize a few songs like "Tell Me Who You Love" and "Good For Each Other." The only things we didn't like about this album are the pictures of Chris... he's much better looking than the album cover shows!

Simon Turner: SIMON TURNER. Here's Simon's new album... and it's great! Simon's voice is either sweet or husky—depending on the

song he's singing! One of our favorites is "Wild Thing" because he sounds so sexy. If you like Simon, you'll love this album.

Michael Nesmith: PRETTY MUCH YOUR STANDARD RANCH STASH. Yes, it's our old Monkee friend, Mike Nesmith, with his own album! Actually, it's Mike's sixth album since the Monkees folded, and we think it's his best! He writes a lot of his own songs... like "Continuing" and "Release." He even produced and arranged the whole album! We hope it's a big success for Michael!

Donovan: EARLY TREASURES. Donovan is the kind of guy that you either love or hate, because his voice is so distinctive and different! We love him—and we love this album! "Turquoise" is a favorite—really pretty... and so is "Universal Soldier," which has a lot of meaning to it (Buffy Saint Marie wrote it). This is sort of a collection of Donovan's best... and his best it about the best there is, for our money.

• GOOD READING

"THE ODDBALLS" edited by Vic Ghidalia. If you're into science fiction, then Vic Ghidalia has a great book for you... "Oddballs" is what the book is about... nine different stories about people with different talents—strange talents that are hard to believe! Each story's written by a master science-fiction writer. Really creepy and guaranteed to keep you up at night! (Manor Books, 95¢)
