LINDA BLAIR

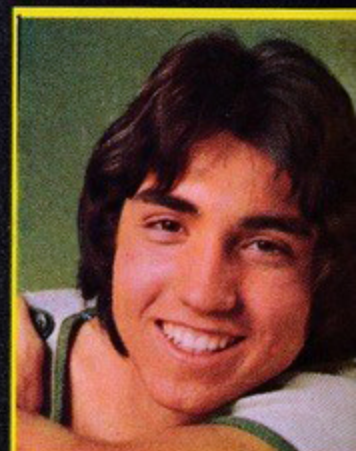

DAVID CASSIDY

Unhappy isn't the word for LINDA BLAIR who lost out on her Oscar for "The Exorcist." But everyone associated with that movie is angry...angry...angry. Who says you can't beat the devil!....Meanwhile little TATUM O'NEAL (you know her don't you? She wears tuxedos instead of formals) is still trying to persuade daddy RYAN O'NEAL to let her do another movie. He says not until she's 16...At 16½ CHRIS KNIGHT has discovered girls in a big way and doesn't want to return to the Brady Bunch if it's picked up. He'd rather date! Who wouldn't...OSMOND WAYNE AND ALAN still sizzling over that magazine story where they aired their private sex lives. "We never said it," snarls ALAN. "We might think it but we don't talk about things like that in magazine interviews!"....BEATLE PAUL McCARTNEY got angry when someone asked if his date for the Oscars was DAVID BOWIE. "That's my wife, Linda," McCARTNEY steamed. Funny, you could have fooled us....And CASSIDY'S brother SHAUN still has the itch to get into show business but MAMA SHIRLEY says an unqualified NO to all of SHAUN'S pleadings.....And MICK JAGGER'S wife BIANCA is still hoping for a movie career. Maybe she can star with MICK in the movie version of the rock opera "Tommy." BIG MICK got huffy when the producers suggested ANN-MARGRET co-star with him....NINO DE FRANCO has a look-alike running around Hollywood signing autographs for him. "Wow," squeals NINO. "I hope he doesn't autograph any blank checks"....RANDY MANTOOTH eats lunch in his dressing room alone most of the time but who was that lucky young lady who got to join him the other day? RANDY isn't saying....MICHAEL GRAY is a busy young man right now. He has one girlfriend on the East Coast and one girlfriend on the West Coast. Lucky for Miss West Coast that MICHAEL likes the beach. She sees the most of him....LITTLE JIMMY OSMOND is on a diet....So is ELVIS PRESLEY and would you believe that even SUSAN DEY has to watch her weight these days. Impossible but true....ANDY AND DAVID WILLIAMS brought wooden shoes back from their trip to Holland. But the twins are growing so fast their feet will probably be too big for them by the time you read this....DAVID CASSIDY is sunning himself in Hawaii hoping to cure up the complexion problems that have been troubling him for the past few years. DAVID'S medicos think it's a combination of nerves and poor eating habits....Hmmm?.....
.....Universal has shut down "Emergency!" set because star RANDY MANTOOTH is hospitalized in Santa Barbara hospital due to an intestinal infection, but the studio is checking this story out. Why? Because RANDY has reported ill in the midst of discussions over pay hike. RANDY & co-star KEVIN TIGHE reportedly earn \$1250 a week and have asked for \$7000 per week! Producers of show have threatened that MANTOOTH & TIGHE can be replaced! RANDY, could your "intestinal infection" have something to do with your show of guts?
