

DANNY BONADUCE

"I'd really love to get into another series. Sure it's hard work, but I really love acting. My contract won't be up with Screen Gems until a few weeks, though, so I'm not really free to interview for other roles! I hope to work in television for a long time."

DANNY'S NOT sure if he will continue his music career or do more TV acting, which he loves!

SHIRLEY JONES

"It's always sad when you finish a book you really liked, or a movie ends just the way you wanted it to, and that's the way I feel about 'Partridge' being over. But, on the other hand, it's exciting to look forward to the future and other things you can do. Now I'm getting together a night club act for Las Vegas, which will really be something new and exciting for me after four years as Shirley Partridge. Doing a weekly series is a lot of hard work, but it was always fun, too. I'd like to do a movie, and a television special, so I've got enough things to keep me busy and happy for a while! Thanks for making 'Partridge' the success it was."

BRIAN FORSTER

"I've interviewed for some commercials and things already, so I'll probably still be seeing you from the television screen. Also, I'm going to do some modeling for children's clothes in magazines! Being a 'Partridge' was fun!"

SUZANNE CROUGH

"I'm going to have a lot of fun just staying home, going to school and learning how to horseback ride! I'm going to get my own horse, too! I've had fun on 'Partridge,' but I've missed staying home and doing fun things other kids my age get to do. So, I'm going to do them now! I wouldn't mind if a movie came along, and I might do some commercials, but I don't think I'll be on a regular series for a while. It's hard work, but fun!"

SUSAN used to be a model, but she wants to do more movies!
