

# HOLLYWOOD

BY LINDY FRANKLIN

Hi all! Barbara's visit here was super-terrific! We were on-the-go all the time. After all, when you come to Hollywood, you don't just sit around! There're too many exciting places to go and people to meet!!

Went over to see **David Cassidy** in one of his last PF shows! He looks terrific and seems happier than ever! Now that he's through filming "The Partridge Family"—he'll be spending a lot more time in Hawaii and he's always wanted to do that!

We talked to **Andy** and **David** when we were visiting the "Partridge" set. They were guest-starring and looked wonderful! They recently had their hair cut in a shorter, really cute style. Think you'll like their new look! And speaking of changes, those guys are taller everytime I see them! I remember when I first met them, a couple of years ago, they were a little shorter than me. Now I have to look up to them!

One of my most favorite "hang-outs" is the Rainbow in Hollywood on Sunset Boulevard, where **David Cassidy** used to hang out, and a lot of super rock stars still go. I took Barbara there for a little "atmosphere" and some great salad, too! And who should walk in but **Alice Cooper**! He looked good—really! I talked to him and found he's a really nice, normal guy! Nothing freaky about him in the least! His manager's cool, too.

Ran into **Barry Williams** who'd just returned from London with the rest of the **Brady** kids! He had all sorts of terrific stories to tell about that trip! And he couldn't stop talking about what a great guy **Robert Reed** was for taking them all! He looked great, too! **Maureen McCormick**, whom I saw a few days later, told me she's doing a pilot for a game

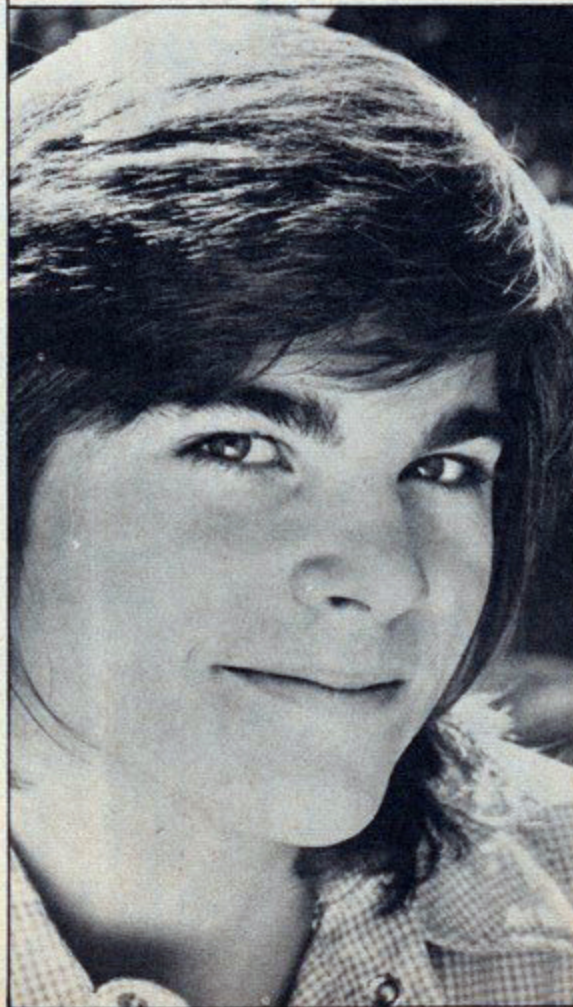

show of some sort—couldn't give me exact details, but told me she'd keep me posted!

Other people up for pilots are **Michael Grey** and **Jan-Michael Vincent**, who's having one specially created for him. I'll let you know the details when they come in!

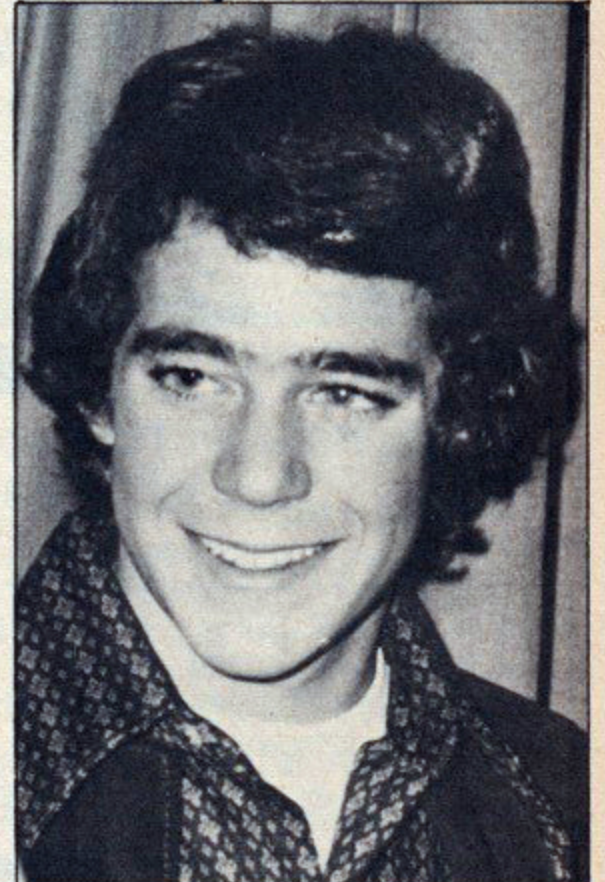

Went to see **Rick Springfield** rehearse with part of his new back-up band! It's not complete yet! So far **Rick** has some really nice guys working with him!

I ran into **David Holmes** who told me a startling new development in his career—he's quit show business and become a Steward for Pan American Airlines! Apparently, he was so disappointed with the failure of his series pilot "Boomtown Band and Cattle Company" that he decided to try his hand at some other line of work! Good luck, **David**!

DAVID HOLMES

BARRY WILLIAMS

**Jack Wild** recently decided to marry long-time steady girl, **Gaynor Jones**! Best wishes!

**Rodney Allen Rippy** (nope, he wasn't eating a hamburger—just a shake and taco), did the "Merv Griffin and the Christmas Kids" ninety-minute Christmas special which aired early December. Hope you caught this little cutey!

Ran out of room again this month! Hope your dreams for the New Year come true!

Flipped, Lindy!
