

David—He's Still Mr. Success!!!

David's leaving PF—but his life is still as exciting and successful as ever!! His incredible career has become even more frantic now than it's ever been—and his gigantic World Tour '74 is just one example of the sweet success still coming David's way!!!

Last month marked the beginning of one of the most exciting adventures of David's life!! On the 26th of February, his fantastic World Tour began in Auckland, New Zealand! He played to a capacity crowd of happy, enthusiastic fans in Eden Park—really a knockout way to start the long-awaited world tour!

DOWN UNDER!

David's "down under" but that has nothing to do with his spirits!! He's making the Australian scene these days, playing the big cities of Sydney, Brisbane, Melbourne, Adelaide and Perth! Everywhere he goes, his foreign fans give him king-sized welcomes, begging him to play "just a little longer!" and pleading with him never to leave! If there were any doubts about David's continuing popularity, no one's doubting it now! No matter where his tour takes him, everyone adores him!!

ADVENTURE IN THE ORIENT!

Phase II of his exciting tour will take David to the mysterious Orient! On March 19, David will zap into colorful Hong Kong for his first in a series of exciting concerts!! Six more shows will follow in Japan, including one at the famous Tokyo Budokan! David can't wait to meet and greet the oriental fans who have been such faithful Cassidy rooters all along! And he's eager to see the sights of this interesting land as well!!

ON TO BRITAIN!

When the Hong Kong and Japan dates are done, David'll still be zipping along at top speed! He plans to return to Britain where he had so much fun last March! David's almost as big there as he is at home! When "Dreams Are Nuthin' More Than Wishes"—David's first LP in a year—was released, it climbed up to Number 1 on the charts in only a few weeks time! In fact, David's a big hit all over the European continent!! Bravo Magazine in Germany calls him that country's *most popular singer!!!*

BACK HOME AGAIN!

The entire World Tour '74 should take about three months. During that time, "Mr. Success" David will play to thousands of lucky foreign fans and visit many interesting countries! But when it's all over, David will be coming back home to the U.S.A.—and the folks who love him best of all!!!
