

What's In The Stars For The Stars?!?

Time to take a quick peek into Flip's crystal ball
to see what tricks and treats the future holds for your favs!!!

Flip's Astro Flashes

DONNY
OSMOND

Unfortunately, fewer concert dates are on schedule for Donny and the Osmonds—but the crystal ball shows that Donny will make good use of whatever spare time he gets as a result. He's going to spend more time answering fan mail for one thing! We also predict that Donny will soon catch the bug for songwriting and come up with some winning tunes that the Osmonds will be recording!

RICHARD
THOMAS

Richard's already started to "branch out" into other areas of acting and our crystal ball shows that the future holds more adventures outside the TV world for him! His past successes in on-stage productions will bring him many theatre offers and Richard—despite the fact that he will have to work double-time will be ready to accept the best ones.

RANDY
MANTOOTH

Randy's been worried about getting "into" a new season of filming the series—but he'll do just fine! All the tension that's been building up just proves that he really cares about his acting and wants to do the best job possible. Aside from the usual little headaches that plague a television actor, this coming season will be the best yet for handsome Randy!

RICK
SPRINGFIELD

The stars are twinkling for Rick as the snowball of success gets bigger and bigger for him and he adds on more and more excited, happy, super-thrilled fans to his list of supporters! It's going to be smooth-sailing for this star—he'll receive rave reviews wherever he goes and his singing and songwriting talents will win him *superstar* status very soon!

TONY
DEFRANCO

Rumors will circulate that Tony is looking for a chance to leave his brothers and sisters and strike out on his own with a solo act! The crystal ball shows that you shouldn't believe them! Tony will be quite content to continue working with the other DeFrancos for some time. He is not ready to leave the group to work alone and does not want to.
