

# "Our Summer

**ALAN OSMOND**

"I'd like to find a girl who is really interested in cars and mechanics—I know such a girl exists somewhere! I want to get my hands on a really old car—like a '55 Chevy and get it into working condition with her help! It could be a really fun project if she's game and not just pretending!"

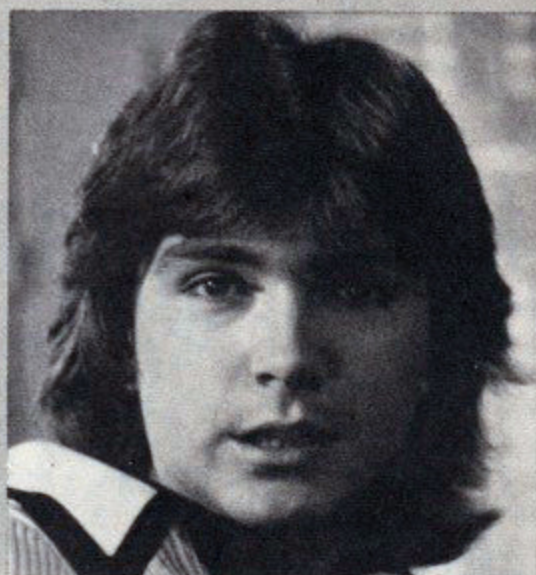

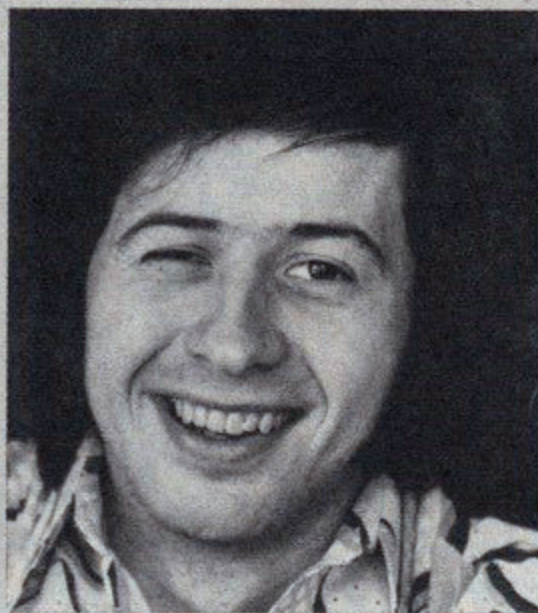

**MICHAEL JACKSON**

"I'd like to spend the entire summer dating each and every one of my fantastic fans! They've done so much for me that I'd like to give a day to each of them and really show them a wonderful time! That would be the coolest love dream I could wish for!"

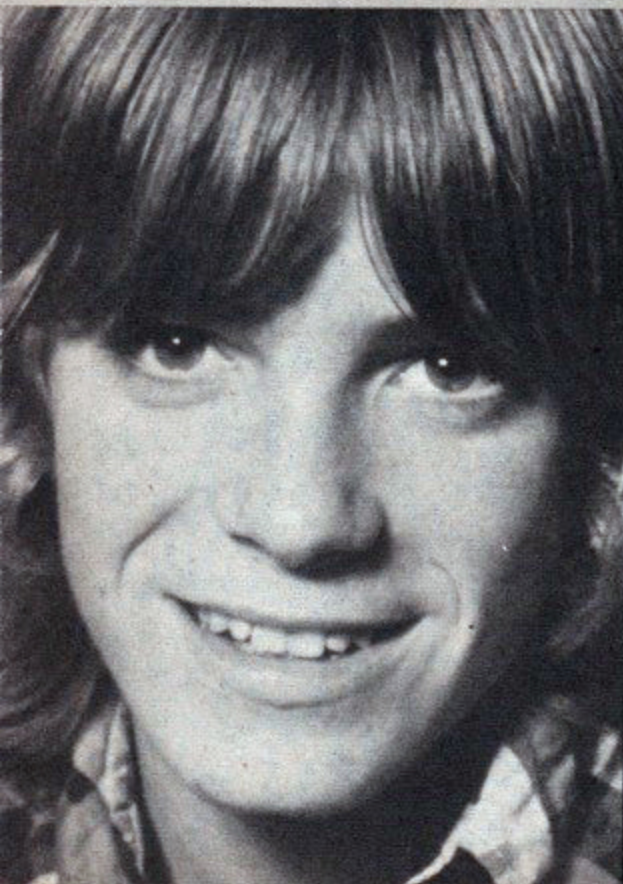

**SCOTT JACOBY**

"I once met a really sweet girl and I never forgot what she was like, but her name did slip my mind! She told me she was my best fan and that she really liked my acting and I really got red in the face with all those compliments! But she was super nice and I'd like to bump into her again this summer and ask her out!"

**DAVID CASSIDY**

"I'd like to forget about work for a little while and concentrate on my search for the one girl in the world who was made for me. I know that sounds corny, but romance is a little difficult to talk about without sounding corny. I only know that if I could, I'd take a nice vacation and go on safari for Miss Right!"

**SIMON TURNER**

"I want to take a bus ride from one end of the United States to the other and every time the bus stops for the day, I want to meet someone absolutely fantastic and paint whatever town I'm in with her! Could that come true if I wish hard enough?"
