

A FAMILIAR SCENE: David in his dressing room with gifts from adoring fans.

DAVID AND CAROL: Both are on to new worlds. David's getting ready for the future on his own and Carol Deck, FLIP's former Hollywood Editor, is writing her first novel.

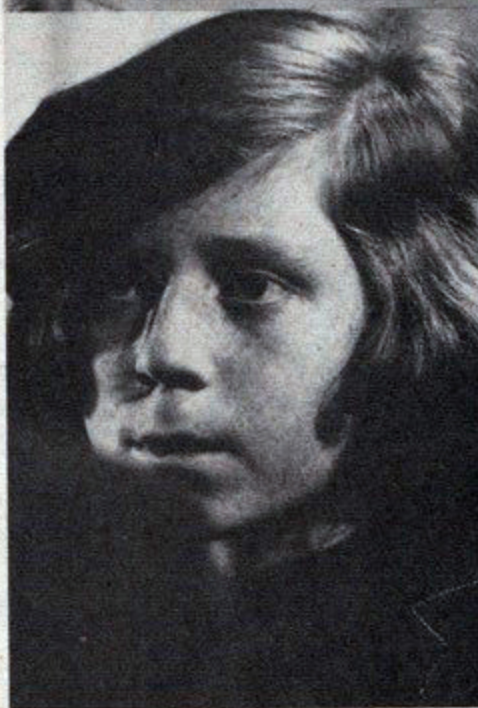

SUSAN looks like she's looking into the future . . . which promises to be a bright one!

IF YOU HAD a dollar for each time this scene was repeated, you'd be rich! Sure, Shirley Jones and David are mother-and-son, but more than that they're two dedicated performers who wanted each scene to be perfect!

ONCE THE SHOW was sure of superstardom, David concentrated on becoming a better and better singer. He'd spend hours alone with his guitar practicing so that his next hit record and album would be better than the last one!

DANNY looks like he's thinking about the past . . . which made him one of the most popular young actors in Hollywood history!
