March 21—
 April 20

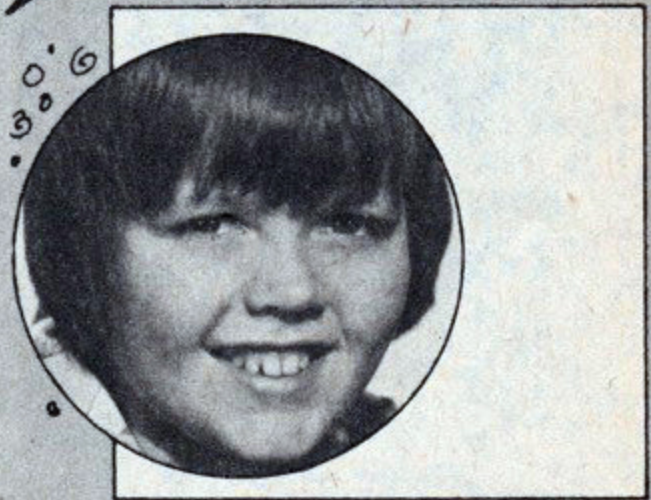

THE ARIES PERSONALITY

Aries is independent, unconventional and so artistically inclined that you really have to bring him down to earth often! He's always dreaming, scheming, planning and he has so much incredible energy that he can come rolling through like a steamroller when he has to get something done. Don't stand in his way!

ARIES
IN
LOVE

Sometimes you will feel as if you are competing with a million different interests to get his attention—but don't be fooled! Aries likes a girl who is independent, self-assured, but who sticks close by! He hates to admit that he needs you—but you have to sense when that is so and be there for him!
