DAVID’S SONGS

<u>On the left you can see David Cassidy's new LP: It not only presents a musically completely new David - it also provides a deep insight into David's innermost feelings and thoughts. BRAVO presents three song lyrics from the record and lets David himself comment...</u>

"There's a lot in my new LP that I've experienced myself, both privately and professionally," David tells us when he talks about his record, "The higher they climb, the harder they fall". The LP tells a story: it's about the steep rise of a small-town boy to rock stardom. The fame is short-lived. He falls from the highest peak into the depths - he ends up as a bum.
"I know what it feels like to suddenly be adored by millions," says David. "And I also know how lonely you can be at the peak of fame. You have millions of fans - but you long for someone who understands you."
That's why most of the songs on the LP are about love. Including two of the ones we are reprinting here: "Get it up for Love" and "Fix of your Love".
"The first song shows what an important role love plays in my life. It is the force that drives me and helps me to endure many things. And the second is about the rock star's depressive phase, when he needs nothing more than someone to stick by him. I know phases like that very well myself.
Just like the mood of the song, When I'm a Rock'n'Roll Star. As a boy, I also dreamed of becoming famous one day..."

A sip of David's new future: On the night of his 25th birthday - April 12, 1975 - David finished recording his LP. He then toasted the success of the record with the recording team
