

VISITORS TO CASH BOX — RCA recording artists **Hall & Oates** stopped by **Cash Box** last week full of enthusiasm over their upcoming debut LP for the label. Darryl and John have nearly completed the LP here in L.A. and are planning a "coming out party" to celebrate its release. Darryl Hall told me the new record is a synthesis of sounds from their last two albums with Atlantic. Look for more powerful singles on this one, though. Maybe another "She's Gone," one of the best tunes of the decade.

Also dropping by to say hello was newly-signed RCA artist **David Cassidy**, who chatted briefly about his new single "Get It Up For Love," and about his upcoming European promotional tour. David recorded his first LP in over two years with **Bruce Johnston** co-producing, and looks forward to continuing his writing and recording ventures.
