

David Cassidy is back in 'Spirit of '76' movie

© Los Angeles Times

David Cassidy, idol of teeny-boppers in the early '70s, turns up as the star of "Spirit of '76," a film about a group of humans from the 21st century who attempt to travel back in time to 1776 — but instead "boogie down" to the disco beat of 1976. The film has wrapped and is awaiting release.
