

c'mon inside...

## David's Dressing Room

David's due on the set in just a few minutes... now you can take a peek as he gets ready for his next important scene!

**DAVID WASHES HIS HAIR** every morning at home and it partially dries as he drives to the studio. Once he's had his make-up applied by make-up man he goes to work!

**USING A HOT-AIR BLOWER**, David brushes his hair as he dries it, shaping it by turning the brush over and over to get the right shape. He has it trimmed regularly.
